LETTER TO PARENTS

Our commitment to quality, safety, and educational excellence will help guide your child to a firmer and more efficient fluency in English.

It is proven that younger students who learn a language consistently and with the help of native teachers, progress faster and achieve better pronunciation, grammar and vocabulary. That's why LC has developed language immersion camps especially for students aged 3 to 5 years, 6 to 9 years and 10 to 16 years, in which they can experience daily contact with the language in a safe and entertaining environment.

Quality and Experience

For more than 10 years, in both Tenerife and Las Palmas, LC has reached the highest standards in language teaching and the advanced use of technology in order to achieve this. We have our own, unique methodology and have been accredited by pioneering institutions in the world of language acquisition, such as the University of Cambridge and Trinity College, London.

Our exclusive methodology

Our proven method, LC Action English, will allow your child to learn both inside and outside the classroom, practising the language in real-life situations. In this way it not only strengthens language skills, but also self-confidence.

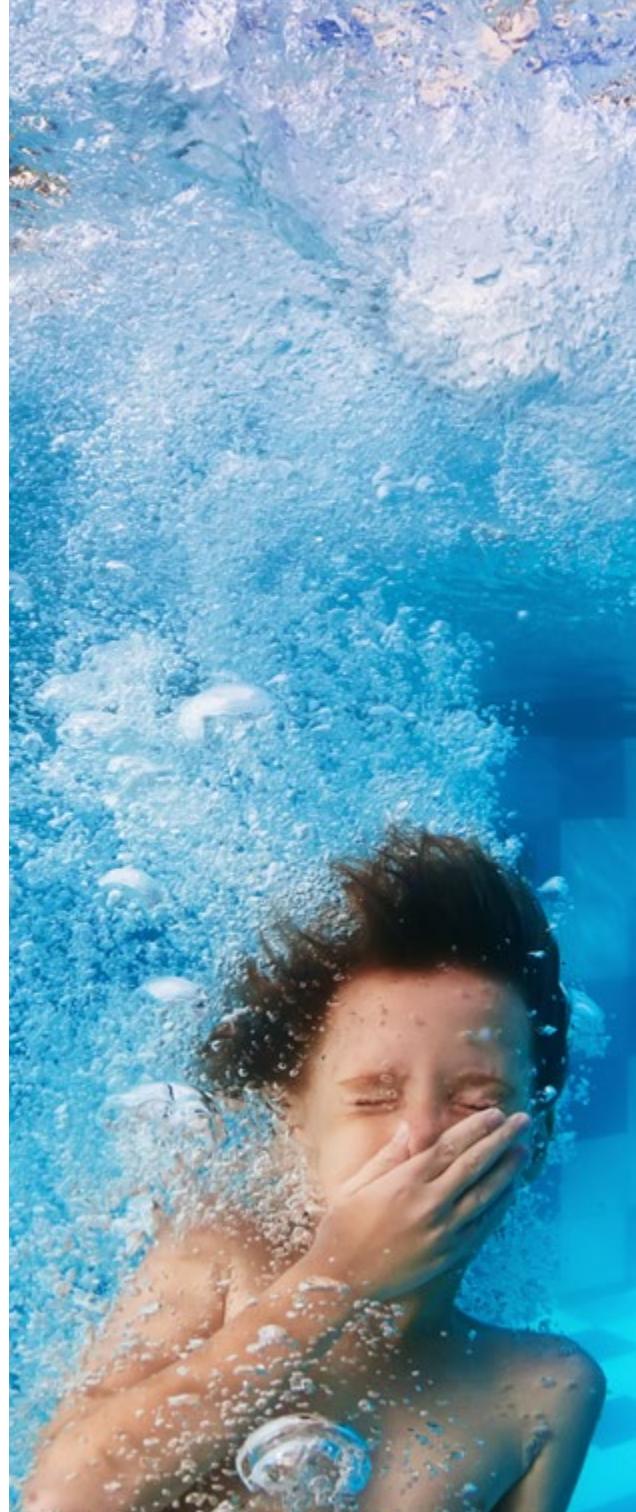

Support all the way

With LC, thousands of students have become "citizens of the world". We take care of everything: preparation of the curriculum, organization of academic activities, guided tours and everything else. Our staff, always attentive and available, make sure your child is comfortable and safe whilst enjoying a unique experience and having the time of their lives.

ACTION ENGLISH CAMP

Always with you

LC Action English means English in action. Our methodology is based on practical tasks, projects and experiences, building on previous knowledge and developing new skills, (receptive, productive, interactive and mediation) as set down in the Common European Framework of reference for Languages.

In the current climate it is not enough to be aware of the grammar of a language. You also need to know how to use it to communicate effectively with others. Using our own material and planning, we adapt to each student, their ways of learning, consolidating the knowledge they already possess and enhancing those which are less developed.

We provide detailed follow-up and open communication between teachers and parents on the development of the students' skills. These are documented through the presentation of a certificate guaranteeing the student's language level.

Our experience shows us that in order for the experience to be successful, the classes must be taught by native teachers who are motivated, with years of experience behind them and a considerable measure of charisma in order to achieve success with the students.

Our camps include:

- More than 80 hours a week of programmed activities in English, complete with all materials.
- Native English speakers, qualified and experienced in teaching English as a second language.
- Small groups of up to 15 children.
- One English-speaking monitor for every 15 children plus teachers.
- Strict and specialized supervision.
- Lunch, in the case of Daily Immersion, and full board for Full Immersion.
- Excursions (number depending on the type of camp chosen).
- Accident and civil liability insurance.
- A campus designed to make children feel at home.

Make new friend and have a great time!

Modalities

LC SPORTS

We offer entertaining and interesting sessions which aim to develop skills that are not only useful in a sports context, but in real life and social settings. Our campers will learn the vocabulary related to different sports disciplines, will play sport, work as a team and meet new friends.

And work as a team, while meeting new friends. There will be a final competition where the participants will receive original and entertaining prizes.

Ready, Set, Go!

Communication and skills

Key vocabulary will be provided and practised. A range of theatrical and vocal techniques will be worked on.

Communication and techniques

Once the drama techniques and vocabulary have been worked on, the learning will progress through workshops based on improvisation, stage fighting and dance.

Memorizing the script

Once the drama techniques have been learned, there will be a play script to read. Parts will be given out and script learning will begin. On the stage the backdrop and scenery will also have to be developed and there will also be costume workshops.

Rehearsals and acting.

You must try and put into practice what has been learned. There will be a general rehearsal before the final big performance.

Communication and skills

During this part of the camp, the theme of Sport will be introduced. The vocabulary needed will be introduced through group work. During the workshops each group will produce a banner and a name for their group. The rules of the competition will also be explained. The official games will start with an opening ceremony.

Communication and techniques

Training starts immediately with the playing of different sports and the choice of the competitors.

Closing Ceremony and Medals

After the competition there will be a closing ceremony and prizes will be awarded in recognition of the efforts of all participants.

LC PERFORMING ARTS

Our campers will strengthen their self-esteem and confidence, while making new friends! At this crucial stage in their development, where communication and social skills are being developed, this option offers the opportunity to develop their talents and strengthen the skills they already possess.
